

STREAM WIDGET

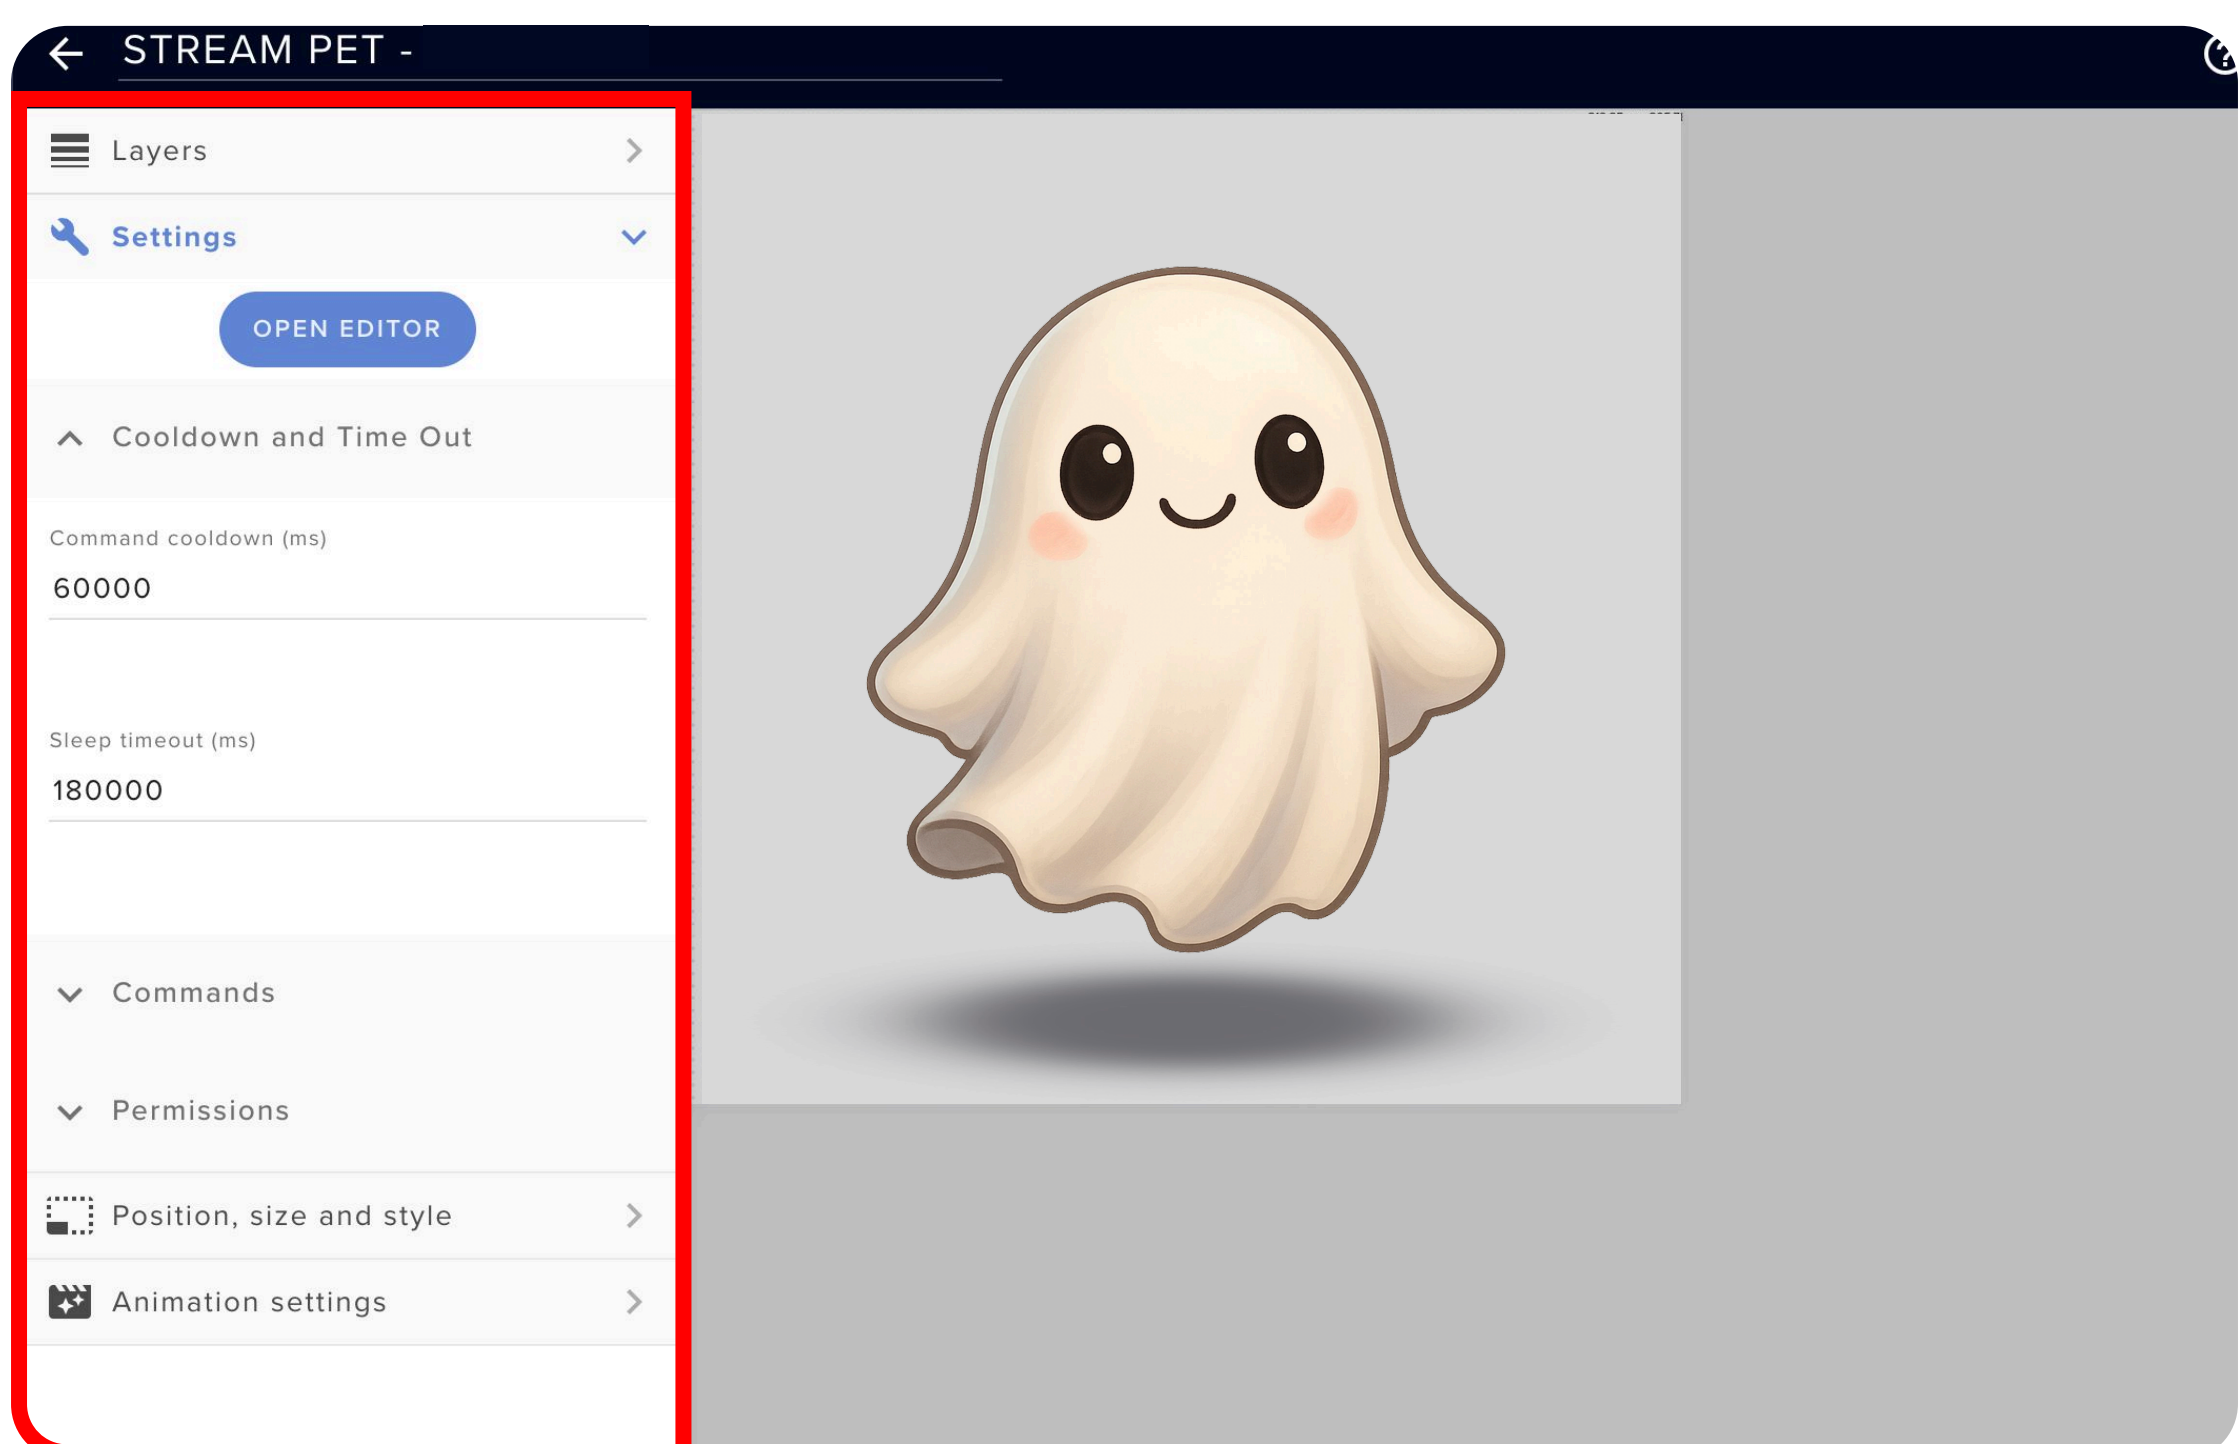

CUSTOMIZATION GUIDE

Step 1: Edit Mode

1/From StreamElements, select your widget and click on "edit."

2/On the left side of your screen, open the "settings" menu.

Customization guide

1/Cooldown

Command cooldown (ms)

1000,01

Sleep timeout (ms)

180000

You can adjust the **cooldown duration** on commands (this option adds a delay before the pet reacts to a new command again, to prevent the chat from spamming animations)

You can also change the time it takes for the widget to fall asleep if no action is performed.

2/ Commands

☒ Enable pet command

Play command name

!play

Here you can edit the text of the commands.

You can also choose to enable or disable a command using the checkbox.

3/Permissions

Permissions

Who can use commands

Everyone

Here, you can set permissions and choose who will have access to the widget commands or not.

Make sure to save by clicking the "Save" button in the top right corner of the screen after making any changes, otherwise, they won't be applied.
