

Advanced settings

If you want to change the color of the mailbox, the style of the text bubble, you're in the right place.

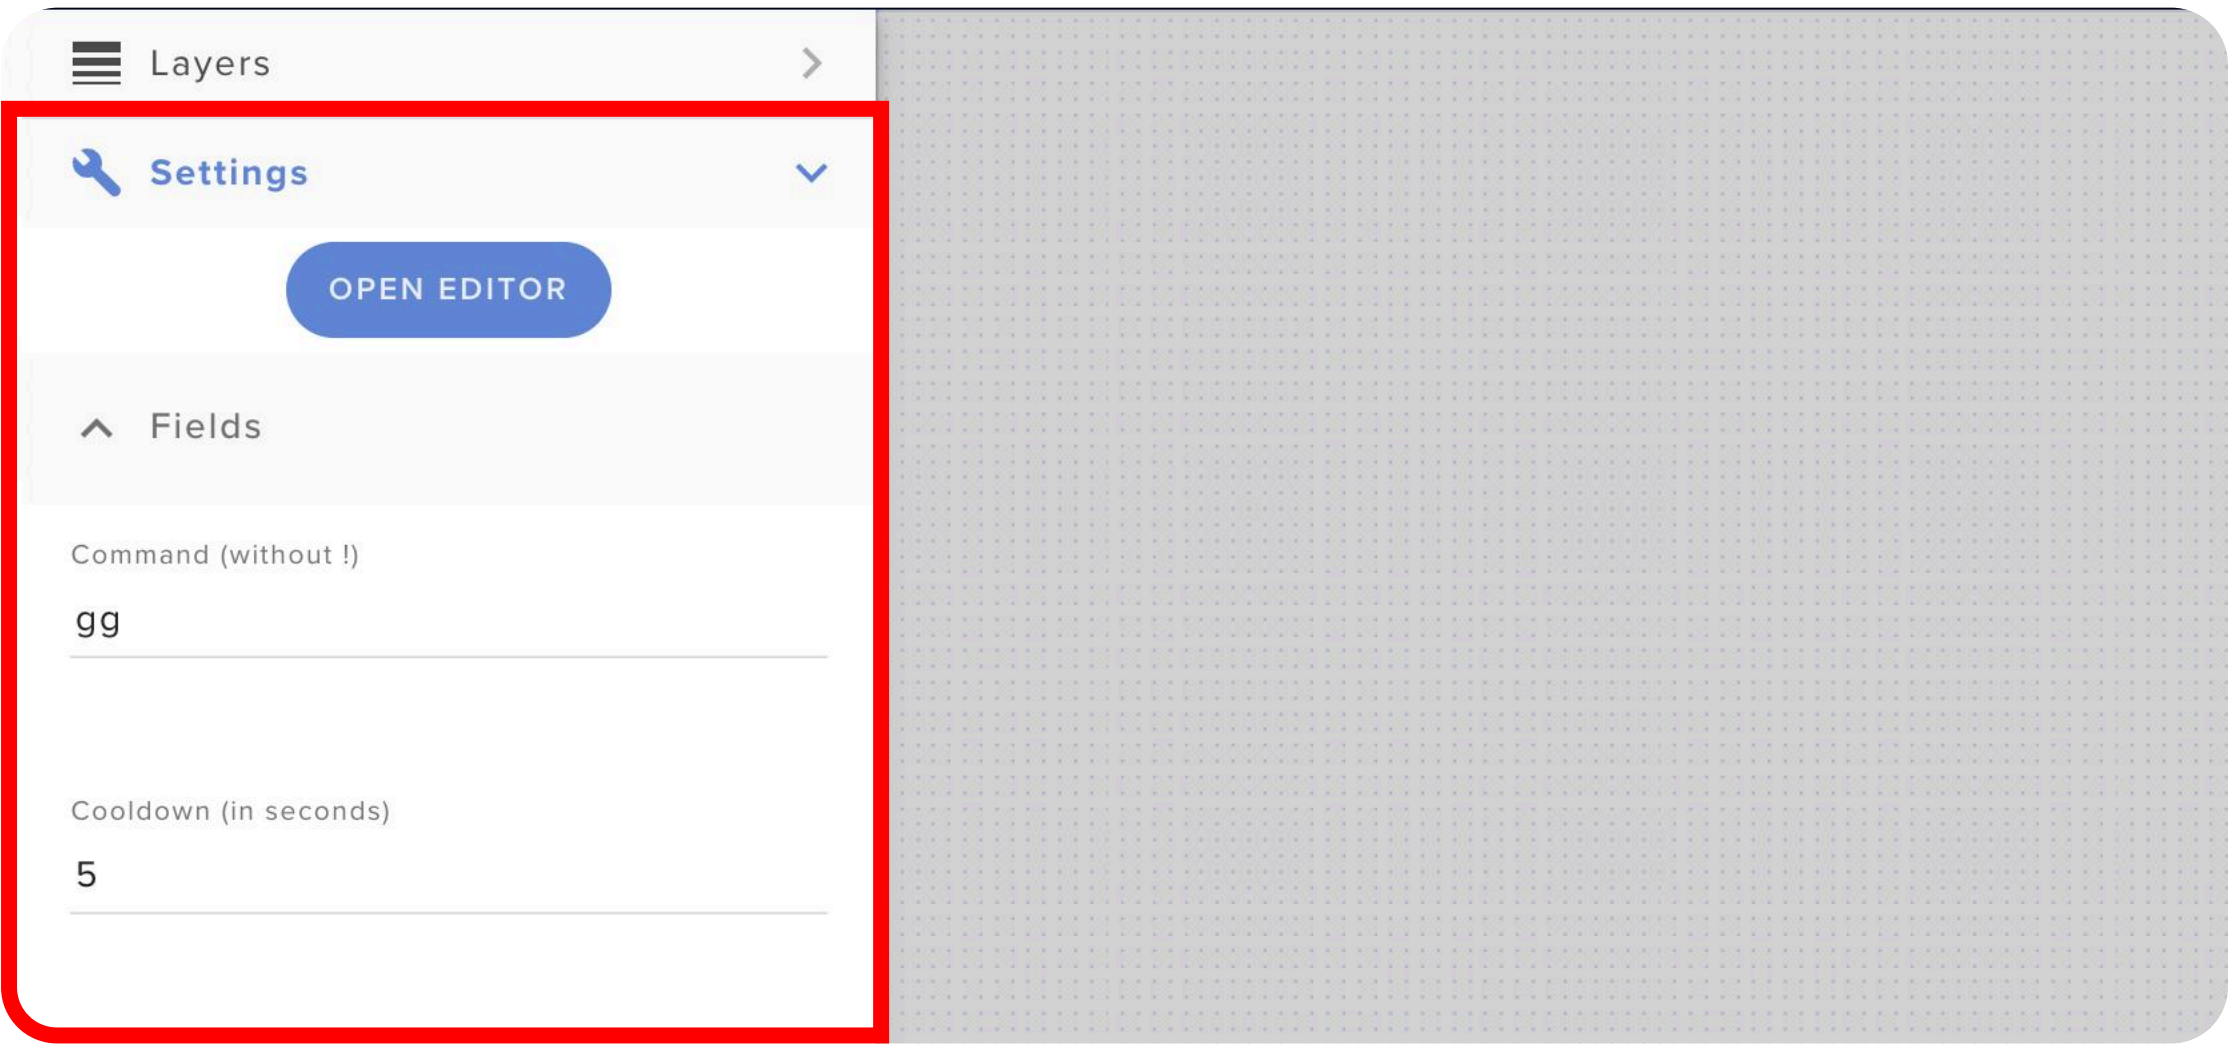

Edit advanced settings through **Streamelement**.

Step 1: Switch to editor mode

1/From StreamElements, select your widget and click on "edit."

2/On the left side of your screen, open the "settings" menu. If you can't see these settings, simply click on "customwidget."

Settings

General Settings

- General Settings
- ☒ Mirror Widget (Left Position)

If you want to flip the position of the mailbox, select this option.

Visual Settings

- Visual Settings
- Message Bubble Color: #faf8e6
- Bubble Size: 115
- Bubble Height Position: -130
- Mailbox Color (hue rotation): 0
- Font Style: Modern (Arial)

Change the background color of the text bubble here.

You can adjust the background color, position, and size of the text bubble here.

Change the color of the mailbox using this slider.

You can choose from 4 fonts, which will be applied to the entire project.

Display Settings

- Display Settings
- Message Display Duration (seconds): 3

Adjust the display duration of the text bubble here.

Mailbox Settings

- Mailbox Settings
- Max Messages Per Mailbox: 3

Change the maximum message limit per mailbox here (the higher this limit, the longer it will take for messages to load).

Messages

- Messages
- Mailbox Full Message: {recipient}'s mailbox is full!
- Message Sent Confirmation: Message sent to {recipient}!
- No Messages in Mailbox: No messages in {username}'s mailbox!

Edit the content of the messages displayed by the mailbox here.

Be careful to always keep {username} or {recipient} in the message (this text will be replaced by the person's name).

⚠️ Make sure to save by clicking the "Save" button in the top right corner of the screen after making any changes, otherwise, they won't be applied. ⚠️
